I. The HISTORY of the WORLD. By Sir WALTER
RALEIGH, Knt. The Eleventh Edition. In Two Volumes
in Folio, printed from a Copy revised by the Author, with
his Effigies, from an original Painting, curiously engraved by
M. VERTUE.

To which is prefixed the LIFE of the Author, newly
compiled from Materials more ample and authentick than
have yet been published. By Mr. OLDS.

Also his TAB, with some Additions; together with a List
of Authors cited by him, and a new and more copious Index to
the whole Work.

Sir WALTER RALEIGH's History of the World is a Work of
so vast a Composiſt, such endless Variety, that no Genius, but
one adventurous as his own, durſt have undertaken that
great Design. I do not apprehend any great Diffiſulty in
collecting and common-placing an Universal History from the
whole Body of Historians; that is, nothing but mechanic
Labour. But to digest the ſeveral Authors in his Mind,
to take in all their Magnificence, Strength, and Beauty, to
raise the Spirit of nearer Historians, and to equal all the
Excellencies of the best, is Sir Walter's peculiar Praife. His
Style is the moſt perfect, the happiest, and moſt beautiful of
the Age he wrote in, majestic, clear and manly; and he
appears every-where ſo superior, rather than unequal to
his Subject, that the Spirit of Rome and Athens seems to
be breathed into his Work.
